EXPERIENCE

Freelance Software Developer

SEP 2022 – PRESENT

Designing and maintaining Python software for managing a collection of 1500 books and maps for the St. Louis Genealogical Society. Meeting with volunteers to understand their needs, writing documentation, and designing procedures to cut the time required to audit the collection by two thirds.

Five Guys Enterprises — Crewmember

AUG 2021 – PRESENT

Working with customers and coworkers to provide excellent experiences. Understanding and implementing standards for food safety and quality and adapting to changes in standards. Fluidly switching roles to maintain store performance in a constantly evolving environment.
